

EZ DRI

Drying Agent

DESCRIPTION

Lower your drying agent costs by using this product. This highly concentrated drying agent is designed to bead water to promote more effective drying. This drying agent is a no frills product that will deliver results time after time.

USAGE INSTRUCTIONS

This product is ideally applied under low pressure application in tunnel and in-bay automatic settings. Begin application at 1000-1500:1 (4-6 drops). For high pressure application apply at 2000-3000:1 (2-3 drops). In applications where greater amounts of rinse water are applied to the vehicle stronger dilutions of product may be required.

FEATURES

- Rapidly beads water
- Consistently works in all applications
- Biodegradable
- Highly concentrated for minimal usage
