

SLAM

Tire Cleaner

DESCRIPTION

Down and dirty, this concentrated alkaline cleaner is perfect for making wheels and tires amazingly clean. This product is highly effective at removing greases, oils and brake dust from the toughest tires. Just sit back and enjoy the show.

USAGE INSTRUCTIONS

This product is extremely strong! In a touchless setting apply to tires at 64-90:1 (18-26 drops) through a CTA. Allow to dwell before rinsing thoroughly. For extremely dirty tires slowly increase the strength. When applying product to tires in a friction setting (automated tire brushes) apply at 80-125:1 (12-20 drops) through a CTA. Allow to dwell before scrubbing.. Not recommended for dry tire application (consult your sales representative if you have questions on this application).

FEATURES

- Brightens white walls and raised letters
- Heavily concentrated for minimal usage
- Rinses easily
- Biodegradable
