

# TP TIRE

Alkaline Presoak

## DESCRIPTION

This product truly is a "jack of all trades." Whether using it for a tire cleaner, alkaline presoak or heavy duty degreaser, TP Tire can do it all. This product is a blend of sophisticated detergents and brute alkaline strength required to help tackle any heavy duty projects thrown its way. Loaded with conditioning agents, TP Tire wont buckle under the pressure of performing in hard water.

## USAGE INSTRUCTIONS

TP Tire should be applied under low pressure. As a presoak application apply at 32-64:1 (10-14 drops). Allow to dwell before rinsing. For application as a tire cleaner, apply through a CTA at 18-32:1 (18-28 drops). For use as a heavy duty cleaner/degreaser begin at 32:1 (18 drops) and adjust as necessary.

## FEATURES

- Hard water compatible
- Versatile crossover application
- Buffered for safety on soft metals
- Great show and performance
