

NOVA

Ceramic Drying Agent

DESCRIPTION

Finally, a hybrid product that combines the durability and shine of a ceramic with the break of a drying agent. Using innovative technology that incorporates ceramic additives, Nova produces a superb dry that leaves the vehicle super glossy and velvety to the touch. It provides lasting protection against the elements to make it easier to keep your vehicle clean. Take your drying from a weakness to a thing of beauty.

USAGE INSTRUCTIONS

This product is ideally applied under low pressure application in tunnel and in-bay automatic settings. Begin application at 300-375:1. For heightened protection and shine run product at stronger levels.

FEATURES

- Enhance clearcoat protection
- Improves future clean-ability
- Sophisticated fragrance
- Deepened gloss
